- Environment is a very broad term. It includes everything that is around us. Air, water, plant and animal life is all included in the environment. The greatest problem of present day world is the pollution of the environment, be it soil, water, air or sound. Pollution literally means contaminating the natural environment by some unnatural elements which make it polluted to the extent that it becomes unhealthy for plant and animal life. The worst part of the story is that it is only the man who is responsible for this and which if uncontrolled can lead humanity to extermination and this beautiful creation of God may see its end at its own hands.
